5. Findings:

As PIBM focuses on students’ overall growth and developing their competencies so that they can perform well in the professional world. To ensure the same, PIBM follows a rigorous recruitment process and faculty finalization for the subjects, but students’ feedbacks help faculty and the institute to understand points of improvement in terms of different aspects of teaching and training.

As the Mid Sem Feedback helps to understand students’ requirements of Remedial sessions and all other requirements to understand the subject better, Mid Sem feedback is required. The overall average rating is 3.39 out of 4 which is good and provides us the clarity that the respected faculty taught them well in the class.
