

REPORT ON ACTION TAKEN ON STUDENT FEEDBACK**AY 2017-18**

The student feedback on faculties and course curriculum was taken at the end of each semester by the Batch-In-Charge and based on the survey following action were taken:

1. Due to students requests on Statistics subject in Semester 1 it was decided to give more Workshop sessions on the subject in upcoming semesters as well as it was decided to replace the faculty in next Academic sessions
2. The faculty of Business Finance 2 were counseled to use more live examples, current industry data due to negative feedback from students on the subject.
3. Based on student's requests, more Advanced Excel sessions were planned to be incorporated in the schedule and preferably specialization wise
4. The Analytics subject faculties were recommended to design their syllabus according to student understanding levels as majority of students felt complex topics were included without thoroughly clearing the basic concepts. Also Workshops were planned on Python, only for interested students so that all student do not find it as an extra load owing to its difficulty level
5. It was also decided to increase mentoring sessions in planned time table to up to 3 per week based on student requests
6. Communication Team was requested to design their sessions in a way that involved more verbal communication as students found difficulty in facing panel interviews and group discussions. So more verbal presentations, GDs and PIs were recommended to be added in Communication Trainings
